Gaelle finds hope

In last January's earthquake in Port-au-Prince, Haiti, twelve-year-old Gaelle lost more than her family home – her whole neighbourhood was destroyed, including the community school.

But thanks to a large tent supplied through UNICEF, Gaelle has been able to resume her studies while a permanent school is being built. With trained teachers and new school supplies, together with clean water and sanitation facilities, Gaelle and her schoolmates have been attending classes – a hopeful sign that one day things will return to normal.

Give a UNICEF Gift of Magic® this holiday season

Team up with family or colleagues to give this simple but remarkable gift that will make a difference for multiple children, in multiple ways. When you buy a UNICEF tent through the Gifts of Magic program you provide shelter to children in devastated areas, you make it possible for an entire community's children to continue their studies and you create a place of refuge and a sense of normalcy in the midst of crisis.

See how real gifts can help change the world.
